

Welcome to the future of HP recycling

Go Beyond

Recycle with HP
Planet Partners

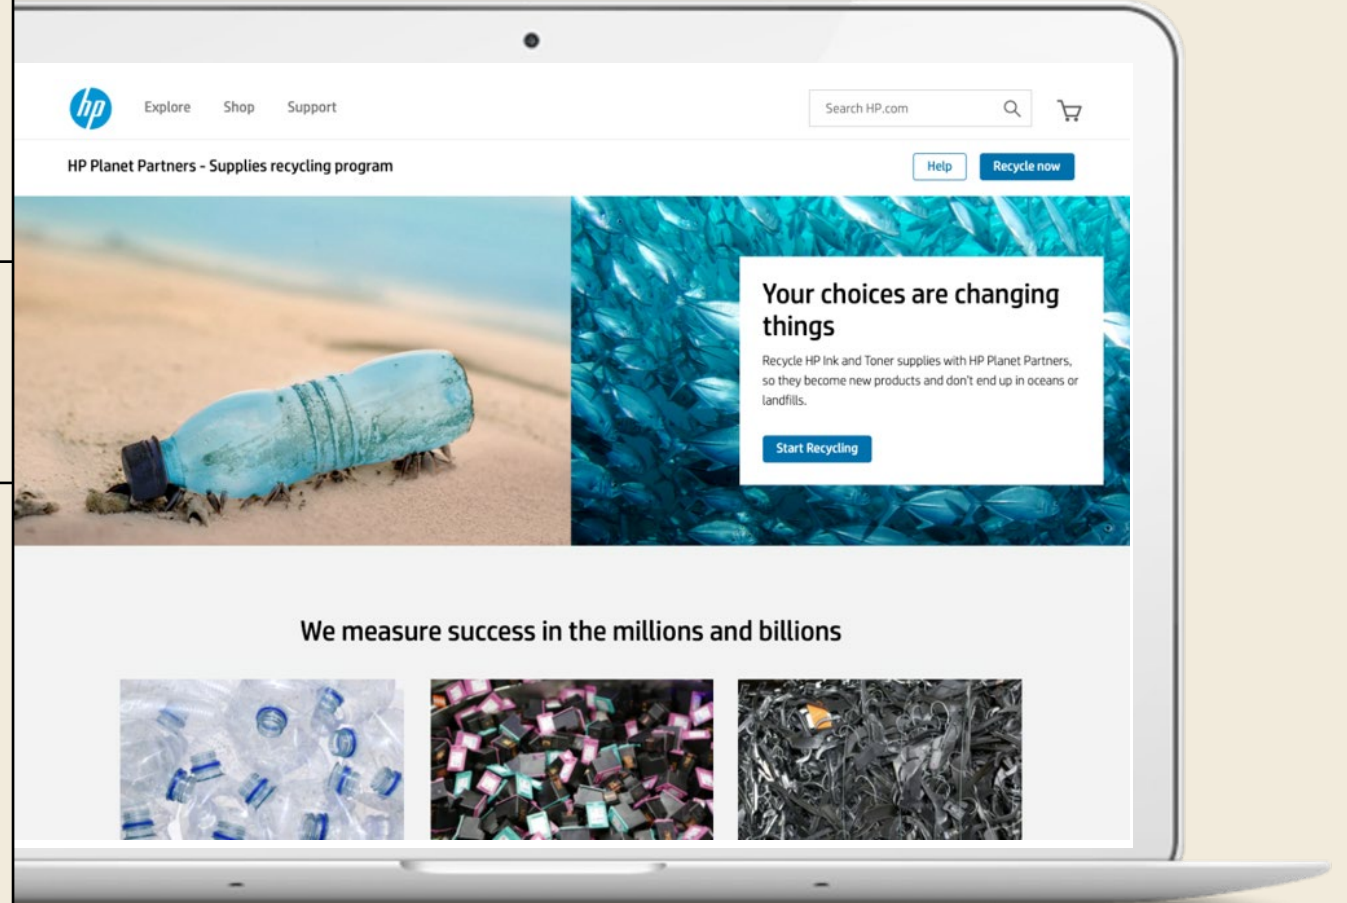

HP Planet Partners' new website makes recycling easy – that's better for you and the planet.

Fewer clicks get you where you want to go fast

Updated, mobile-friendly design makes recycling possible from nearly anywhere

Recycling that works for you and the planet

Maximize Your Sustainability Impacts

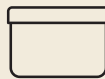

Multiple options give you flexibility and increase opportunities to recycle with ease, and in bulk.

Mail it back

Simply package your used cartridges in our ready-to-ship ink envelopes (which can be ordered for free online) or, to be more sustainable, you can just use any box you may have, print a free shipping label, and send them back to us.

If you don't have a box, you can order a free postage-paid box too.

Request a pickup

Got more than 76 toner cartridges or 1,000 ink cartridges to return?

Use our website to schedule a free pallet pick up.

Pallets must be uniform (i.e. only HP toner or only Samsung toner)

Recycle in bulk

Improve your sustainability impacts by returning multiple used cartridges at a time.

More efficient shipments = less fuel consumption + lower CO₂ emissions

Best practices in supplies recycling

Please do not mix ink and toner cartridges together in the same box or envelope.

Toner

These items can be returned together in boxes:

- Samsung Toner
- HP Toner
- Long Life Consumables

Ink

These items can be returned together in boxes or envelopes:

- HP ink
- HP ink printheads
- HP sprocket cartridges
- HP ink bottles

We cannot accept:

- Non-HP Cartridges
 - Remanufactured Cartridges
 - Refilled Cartridges
-

Register your account today to experience additional benefits at no additional cost.

A white smartphone is shown vertically, displaying a registration form. The form has a blue header with the text "Create your HP account" and a sub-header "One account connects you to all of your HP applications". Below the header are several input fields: "First name", "Last name", "Email address" (with a note "This will be your username" below it), "Create password" (with an eye icon), "Confirm password" (with an eye icon), and a dropdown menu for "United States" (with a downward arrow icon).

Track your orders & your impact

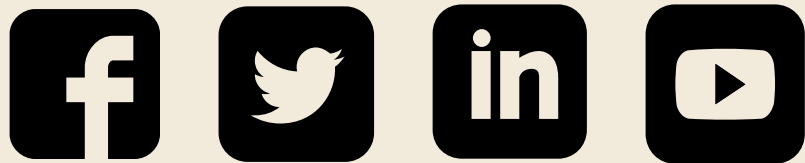

Registering gives easy access to:

- One-click re-ordering for recycling materials
- Order tracking
- Recycling benefit reporting
- Certificates for businesses
- Link accounts to track collective impacts across your organization

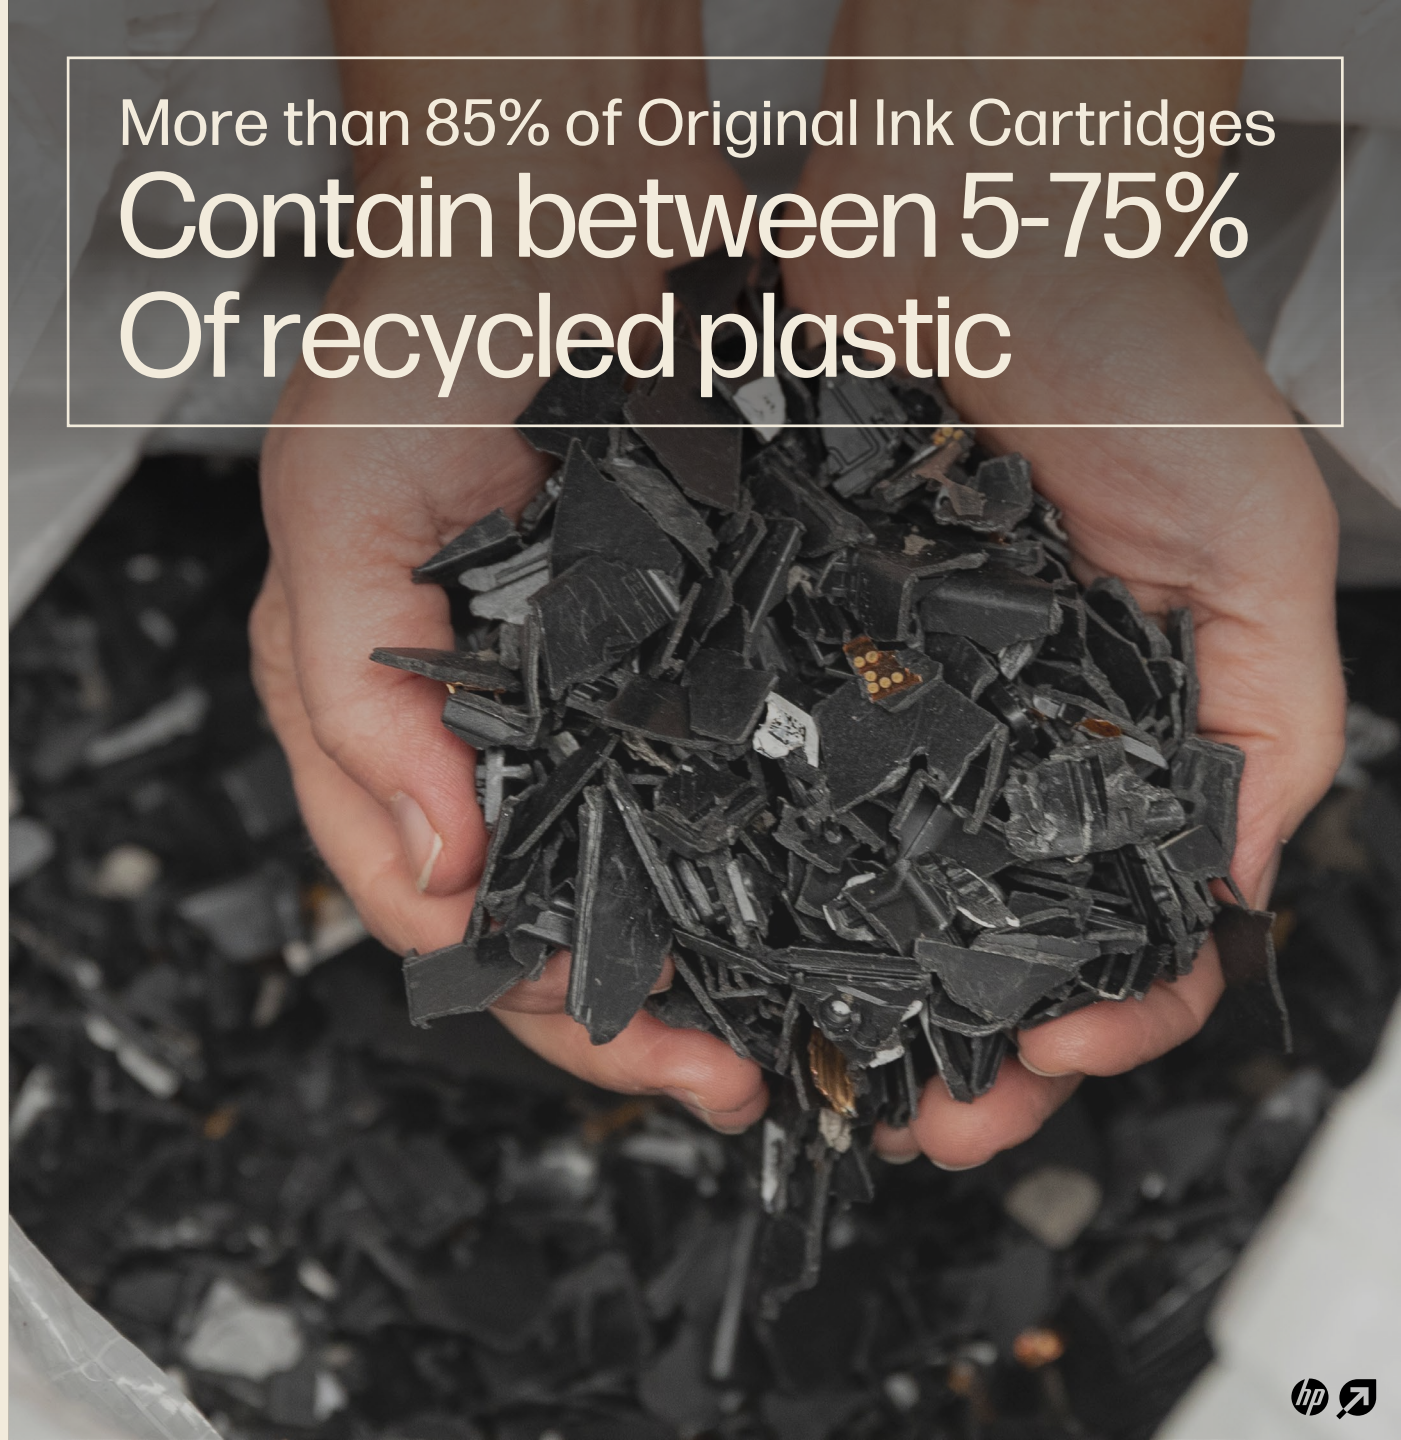

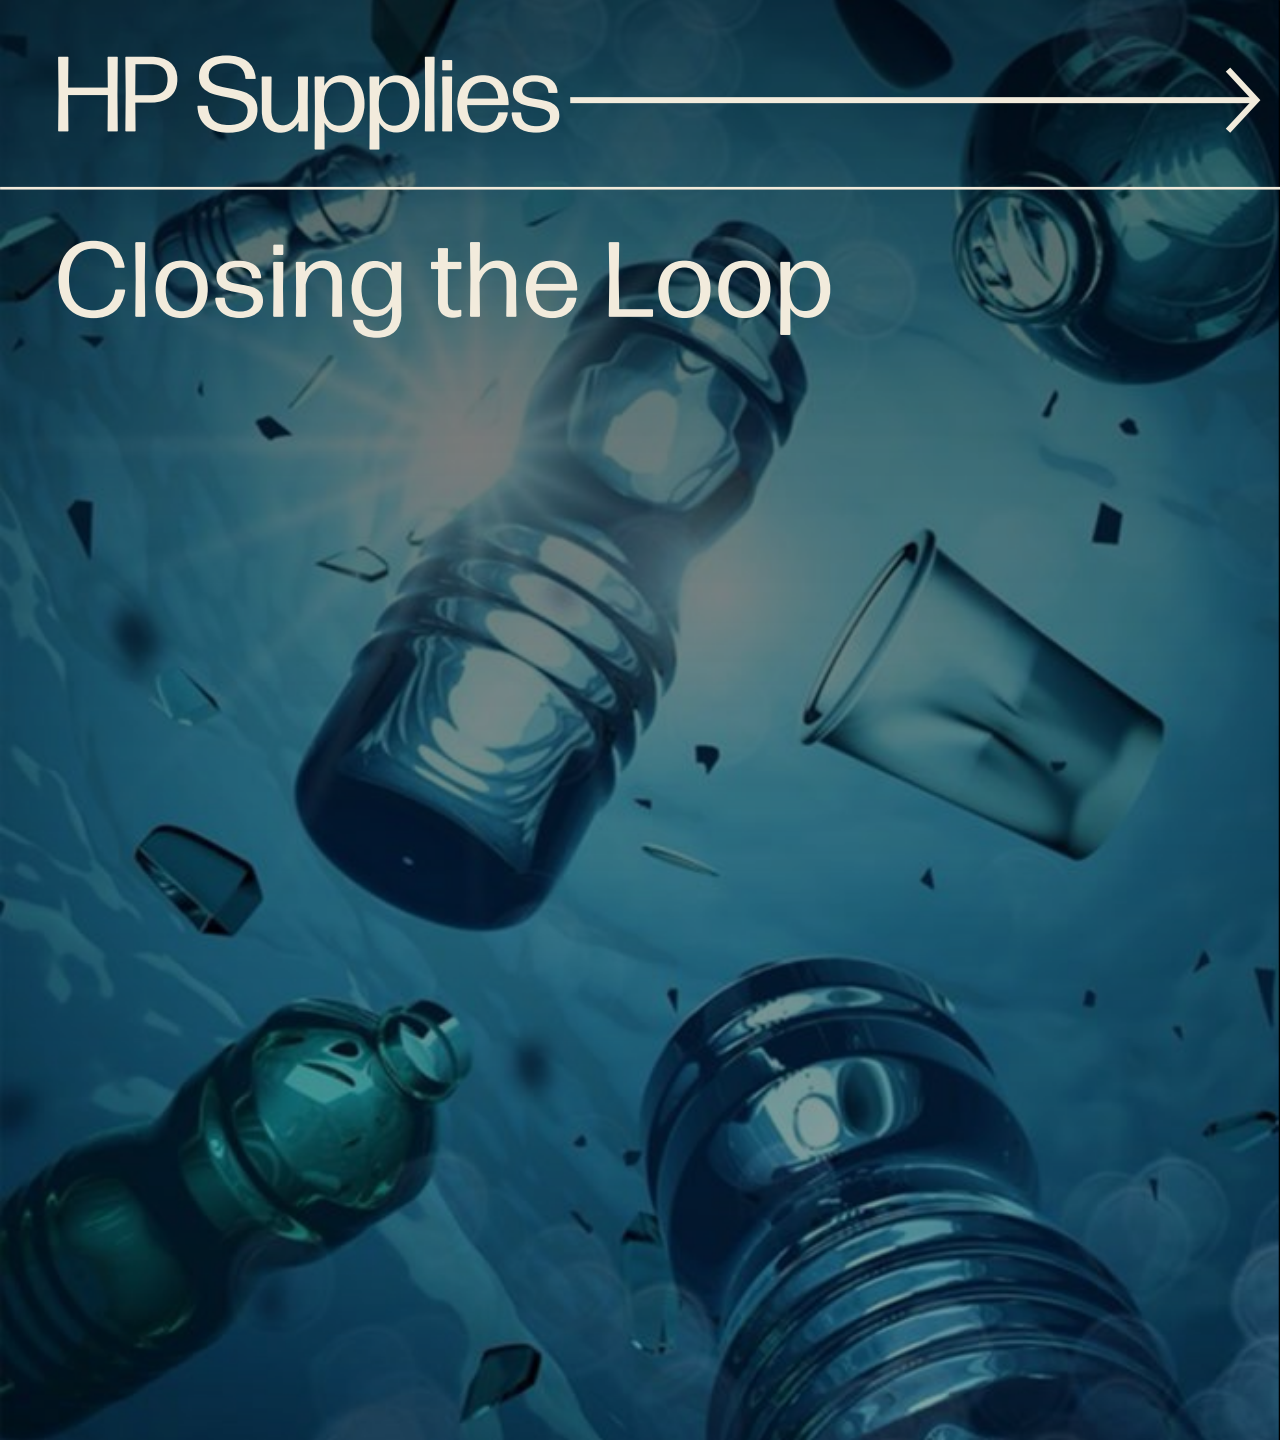

More connected than
ever before

Share your recycling wins with ease.

More than 85% of Original Ink Cartridges
Contain between 5-75%
Of recycled plastic

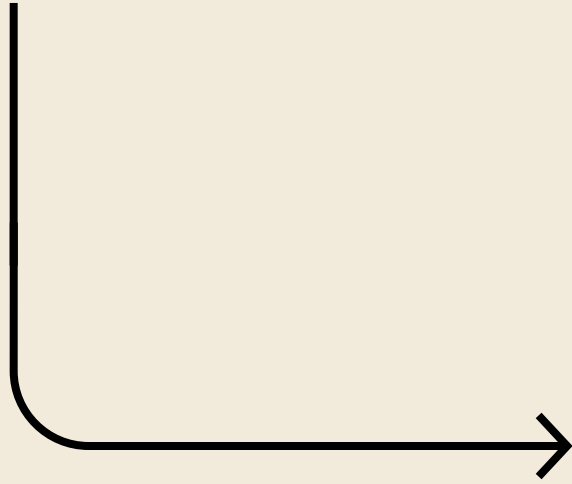

The background of the slide is a dark blue, textured surface, possibly water or a similar liquid, with several broken plastic bottles and pieces of debris scattered across it. The bottles are in various orientations, some upright and some lying on their sides, with some pieces of plastic floating around them. The overall scene suggests environmental pollution or waste.

HP Supplies →

Closing the Loop

Your used cartridges are the difference
Between plastics in
landfills, and plastics that
close the loop.

Your used cartridges are the difference between individual and collective impact.

HP print sustainability

Every technology decision is a sustainability decision

Partner with HP to be sustainable, together.
